

LAKE COUNTRY VETERINARY CLINIC

ADOPTION REQUEST FORM *CANINE*

Lake Country Veterinary clinic is a New York State designated shelter. We provide temporary housing and care for homeless dogs from the following towns:
Marcellus, Otisco, Tully, and Fabius.

It is our goal to place these animals with families that are committed to their health and well-being. Each animal comes with a background that may or may not be suitable for your family. We hope that you will take time and consideration when making the decision to welcome a new pet into your home. *We reserve the right to deny any request that would not be in the animal's best interest.*

THERE IS AN ADOPTION FEE

This nominal fee helps cover the cost of core vaccines,(Rabies, Distemper, Parvovirus, Parainfluenza, Leptospira Bacterin and Bordetella "*kennel cough*"), running bloodwork to check for Heartworm, Lyme and Ehrlichia, internal parasite scans, deworming if needed, and the cost of alteration towards the spay/ neuter. And also for their housing expenses while they vacation with us.

Name _____ Home Number _____
Address _____ Day Time Number _____

Current/Future Veterinarian (if Lake Country circle)

We will phone your current practice to verify vaccine history

Name of Doctor _____

Name of Practice _____

Practice Phone # _____
